SUMMARY

B.Tech Computer Science graduate and full-stack .NET developer with 6 months of hands-on industry experience building and deploying production-style web applications. Skilled in ASP.NET Core MVC/Web API, Entity Framework Core, and SQL Server, with a track record of shipping complete, role-based systems end to end. Seeking a Software Engineer / Full-Stack Developer role to apply strong fundamentals in data structures, databases, and backend architecture.

EXPERIENCE

Industrial Trainee | CS Infotech, Chandigarh

Jul 2025 - Dec 2025

- Developed and maintained full-stack web applications using ASP.NET Core MVC for a live E-Commerce platform, ensuring a seamless end-to-end user experience.
- Designed and optimized relational database schemas in SQL Server, implementing stored procedures, joins, and views that improved query performance and data integrity.
- Implemented secure user authentication and authorization using Entity Framework and ASP.NET Identity, protecting sensitive user data across checkout and account flows.
- Conducted API testing and debugging with Postman, achieving 100% endpoint reliability and adherence to REST standards.

PROJECTS

PustakGhar - E-Commerce Book Store | ASP.NET Core MVC

- Built a role-based online bookstore platform using ASP.NET Core MVC with a layered N-Tier architecture (separate Models, Data Access, and Web layers).
- Implemented Repository and Unit of Work design patterns over EF Core for maintainable, testable data access.
- Integrated ASP.NET Core Identity with role-based authorization for 4 user roles (Admin, Company, Individual, Employee) plus external Google/Facebook login.
- Integrated the Stripe payment gateway with a session-based shopping cart and full order-management flow.
- Designed the SQL Server schema (Code-First, EF Core Migrations) covering products, orders, carts, and identity tables; built a responsive UI with HTML, CSS, JavaScript, and Bootstrap; added an Admin panel for product, category, and user management with image upload.

National Park API | ASP.NET Core Web API

- Built a RESTful API for managing national park data with full CRUD endpoints (Add, Update, Delete, View).
- Used Entity Framework and SQL Server stored procedures for data access; validated all endpoints with Postman.
- Wrote clean, structured, maintainable C# code following REST conventions.

SKILLS

Languages & Frontend: C#, Python, HTML5, CSS3, JavaScript, Bootstrap

Backend: ASP.NET Core MVC, ASP.NET Core Web API, ASP.NET Core Identity, REST APIs

Data Access: Entity Framework Core, LINQ, Repository & Unit of Work Pattern

Database: MS SQL Server (Stored Procedures, Joins, Views, User-Defined Functions)

Tools: Postman, Visual Studio, Git/GitHub

CERTIFICATIONS

Industrial Training in Python (6 Weeks) | Codevibez IT Solutions (OPC) Pvt. Ltd., Mohali 17 Jun 2024 - 30 Jul 2024

- Completed a 6-week industrial training program in Python, covering core programming concepts and hands-on project work.

ASP.NET Core, MEAN & MERN Training | CS Infotech Soft Solutions, Chandigarh

Jul 2025 - Dec 2025

- Project: E-Commerce (PustakGhar) — Performance rating: Excellent.

EDUCATION

Bachelor of Technology - Computer Science and Engineering | Maharaja Agrasen University, Baddi, HP Aug 2022 - May 2026

CGPA: 6.40 | Coursework: Data Structures, Algorithms, Databases, Computer Systems, Machine Learning

Senior Secondary (Non-Medical) | Government Model Senior Secondary School, Sector 27, Chandigarh 2020 - 2022

Matriculation | Noble High School, Pinjore, Panchkula

2020
